PUPPY 1

🐾 Your puppy needs to be exposed to lots and lots of new people, dogs, situations, and places before its 16 weeks old. After 16 weeks it is much harder to socialize puppy to new things.

🐾 Don't wait until your pup is 6 months old to train. Start now to prevent behavior problems and help your puppy become a well adjusted dog who can handle any situation.

In class these we will learn basic commands (sit, down, come, stay etc) as well as socialization (handling, off leash play, meeting people, bikes, strollers and more) and cover problem behaviors like jumping up, housetraining, biting, chewing...

See website homepage for start date!

Fee - \$120.00 for 6 weeks

Requirements: Puppy must be 8-16 weeks old, be current on vaccinations (usually 2 sets of shots), including bordetella, and have a negative fecal test.

For additional information or to register,
Contact Cindy Masterson – cam99@comcast.net - 630-334-4818

Puppy classes are currently being held on Sundays at 1:00 and 2:15 pm and Mondays at 5 and 6 pm.
Please feel free to drop by and watch!

We use only positive reinforcement-based training. This kinder and gentler method of training began with teaching marine animals. We are part of the movement to make this the standard with forward-thinking dog trainers.
